## SUMMARY

I am a Tech-enthusiast, Student pursuing Bachelor of technology in Computer Science. Expertise in Python, Java, C, HTML, CSS, JavaScript. Ability to work under pressure and love to learn things quickly and working in a fast-paced and team-driven environment. I love to solve problems and enjoy being challenged and engaged with projects that force me to learn new technologies. Experienced with Visual Studio, Github, Gsap. Eager to leverage technical expertise and creativity to build innovative and user-friendly web applications.

---

## EXPERIENCE

### Intern

Lets Grow More

May 2021 - July 2023

### Web Designer intern

Sparks Foundation

April 2023 - May 2023

- During my internship, I had the privilege of making, contributing to various web design projects from concept to execution.
- Working in a fast-paced and dynamic environment, I learned the importance of meeting deadlines, and adapting to rapidly changing project requirements.

### Campus Ambassador

Coding Ninjas

November 2021 - September 2022, New delhi

- During my tenure as a Campus Ambassador, my responsibilities include brand awareness for organizing events, workshops, and social media campaigns to create a buzz around the company's products and services.
- Their mentorship allowed me to develop valuable skills in communication, marketing, and event management.

---

## PROJECTS

### Tile Game with Click Counter

Individual project • July 2023 - July 2023

- A Fun DOM Manipulation Project. "Tile Game with Click Counter." It's a fully interactive and engaging web-based game.
- Technology used: HTML, CSS and JavaScript

### Text to Speech Converter

Individual project • June 2023 - June 2023

- The converter uses the SpeechSynthesis API to convert text to speech directly in the browser without the need for any external libraries.
- Technology used: HTML, CSS and JavaScript

### BANKING\_SYSTEM

Sparks Foundation • April 2023 - May 2023

- Simple static web application showing the details about the transferring virtual money between multiple users and recording the banking transactions activities.
- Technology used: HTML & CSS

### Expense Tracker Web App

Individual project • October 2022 - October 2022

- This solo project with a responsive design allows users to input and categorize expenses, set budgets, and view expense data. The app securely stores data locally using JSON, ensuring easy access and management of financial information.
- Technology used: HTML, CSS & Javascript

### HYPE\_TRAVELS

Group Project • September 2022 - October 2022

- The website features a user-friendly form that allows users to input information. Additionally, it displays locations on tiles, providing an intuitive visual representation. The integration of MongoDB enables data storage and retrieval, making the website dynamic and interactive.
- Technology used: frontend: (HTML, CSS and javascript) & backend: (node.js and mongodb)

### AIRLINE RESERVATION MANAGEMENT SYSTEM

UNITED COLLEGE OF ENGINEERING AND RESEARCH, ALLAHABAD • August 2022 - September 2022

- It is a console-based system that helps in consolidating flight data, flight schedules, seat availability, flight fares and reservations.
- This system will enable the user to book the flight and will display all the flight details such as flight number, name, price, timings, departure city and arrival city and flight duration.
- Technology used: JAVA

### Weather Web App

Individual project • July 2022 - July 2022

- The Weather Web App fetches real-time weather details based on user preferences. It offers an intuitive and responsive interface.
  - Technology used: HTML, CSS and Javascript.
-

## EDUCATION

---

### **Bachelor of Technology**

Minor in Computer Science and Engineering • United College Of Engineering and Research • ALLAHABAD • 2024

### **Senior Secondary School**

Jagat Taran Golden Jubilee • ALLAHABAD • 2020

### **High School**

Jagat Taran Golden Jubilee • ALLAHABAD • 2018

---

## CERTIFICATIONS

---

### **Programming Foundations: Beyond the Fundamentals**

LinkedIn • 2023

### **Introduction to Career Skills in Software Development**

LinkedIn • 2023

### **Programming Foundations: Fundamentals**

LinkedIn • 2023

### **Python Data Structures**

Coursera • 2023

### **Industry -Oriented Project**

IBM • 2022

### **Course completion certificate full stack -html ,css, js,node.js,mongodb**

IBM • 2022

### **certificate of training and completion in java**

United College of Engineering and Research, Allahabad • 2022

---

## SKILLS

---

Front End: HTML CSS JAVASCRIPT

Languages: Python, Java, C, SQL ,noSQL, C++,Reactjs

Tools : Visual Studio, Github , QwikLabs, Jupyter Notebook, Gsap
